expectations of our accreditation body, Middle States Commission on Higher Education, is that we have a clear assessment process in place via an institutional effectiveness plan which was approved by IPPC in May 2021. This revised plan outlines expectations for assessment both within the academic arenas and the administrative units across campus, as well as ensuring our assessment efforts are documented through annual reports. Recognizing the need to document institutional assessment institutionally, the SIE began to publish an annual report highlighting key assessment activity beginning in 2018. Today, the annual report is an abridged version of the annual reports submitted by offices from across the College.

This is the first year the reports include highlights to reflect ongoing work connected to the Strategic Action Agenda (IIRUWV KLJKOLJKWHG LQFOXGH 6, (¶V IRFXV F

IPP accepted the 2022/2023 annual report for review and publication. President Conner commended the work noting that the 2022/2023 academic year work demonstrates continued commitment to promote assessment and institutional effectiveness as institutional priorities.
